

EDI IN ACTION:

CYPRESS ELEMENTARY SCHOOL DISTRICT

EDI data inspired Cypress Elementary School District to offer a full continuum of inclusive preschool services in King Elementary's early learning program. EDI data informs classroom instruction as well.

First 5 OC provides funding for the School Readiness Program.

"The collaborative nature of First 5 OC ... has given us the freedom to achieve more in our district and reach higher, and the support to do that."

— Pamela Glasell, Instructional Services/State Preschool Program Manager

Since implementing the program:

- A 3-year-old with limited language abilities spoke their first words
- Students who struggled with social skills are now able to safely play with peers
