

EDI IN ACTION:

HUNTINGTON BEACH CITY SCHOOL DISTRICT

The Huntington Beach City School District uses its Learning Link program to support families with young children who were stepping into a classroom environment for the first time.

First 5 OC provides funding for the Learning Link.

Since promoting the Learning Link:

- Two sessions per day are held to meet the schedules of all parents
- Children and parents are gaining confidence in literacy, play, circle time, and more

“This program brings in a community component to education, our parents have access to being a part of how their children learn, rather than teachers telling them... It has been a real success for our parents and for us.”

— Jason C. Reyes, Director, Early Childhood Education at Huntington Beach City School District
