

EDI IN ACTION:

LA HABRA SCHOOL DISTRICT

The La Habra City School District used EDI data to identify areas in which families needed help, then tailored their outreach to support families and connect them with resources.

First 5 OC provides funding for the School Readiness Program.

"Parents are their child's first teacher and our job is to support them. When they're supported and they're healthy and knowledgeable, then that really does impact the student learning."

— Debbye Viveros, Early Learning Coordinator, La Habra City School District

Since focusing on connecting to families:

- Over 250 families are served in the School Readiness Program
- The Early Learning team earned the Pivotal Practices Award from the California Department of Education
